

Guiding Principles

Patient/family centeredness, teamwork, professionalism, humanism, and service are essential core values of pediatrics

Excellent education leads to improved healthcare and patient health

Pediatric medical student education makes all students better doctors

The learning environment should be safe & enjoyable for all

Teaching should be excellent, innovative, and scholarly

All members contribute to the success of COMSEP

Administrators are educators, and all educators are leaders

Diversity enables COMSEP to thrive

Strong mentor/mentee relationships are critical for our success

Collaboration with other organizations strengthens us
