

Name: Alison Holmes

Email: alison.v.holmes@dartmouth.edu

Phone: 603-892-1826

Specialty: Pediatric Hospital Medicine

Institution: Geisel/Dartmouth

Title of faculty development lecture/workshop:

Activity is Healthy for Learners: Transform your teaching sessions with active learning strategies

Description of lecture/workshop:

This workshop will help faculty take current lecture-based content and transform it to active learning sessions with the use of case-based learning, team-based learning, active journal club, and others.

Presented at COMSEP 2014, Pediatric Hospital medicine 2015

Other areas of interests for Grand Rounds:

High Value care and QI in Pediatrics

NAS, hyperbilirubinemia, breastfeeding

I have presented at multiple grand rounds, local conferences and at PAS about breastfeeding benefits.

I have presented at the AAP national CME meeting about hyperbilirubinemia

I have presented at the PAS platform presentations and local grand rounds/regional conferences about Neonatal Abstinence Syndrome

Specialty: Pediatric Hospitalist/Pediatric Infectious Disease

Institution: Walter Reed National Military Medical Center

Title of faculty development lecture/workshop:

Modeling Expert Thinking

Description of lecture/workshop:

This is an interactive grand rounds or resident/student lecture based on prior COMSEP and PAS workshops. Taking from Kahneman's "Thinking Fast and Slow" and incorporating other educational ideas (think-pair-share, illness scripts), it builds a framework for teaching/modeling how better to get student/residents to think like a doctor.

Other areas of interests for Grand Rounds:

Pediatric infectious disease – especially "the Fourth Disease"
