

Hi,

Thanks again for helping us out with our Pediatric Sim Clinic Week for our On Doctoring Year 1 students!

We have you and your son scheduled for our "Simulated" Clinic week on Monday March 19th from 5:30-7:30pm.

I've assigned you to the Constipation case. On the case there are also instructions and a context for the session, but please be in touch if you have any questions!

During the session, each set of first year medical students (2 of them) will spend about 45 to 50 minutes with you. The first set will spend 5:30-6:15 with you gathering your story and doing a focused physical exam. You'll have a brief break from 6:20-6:30, and then the next set of first year medical students will join you from 6:30-7:15/7:20 (and so on, with 10 minute breaks between each set).

There will be healthy snacks and drinks available to you during the breaks.

Please come 15 minutes early (5:15) just so we can set up and explain things/show you the layout/answer questions. we'll be there even earlier if you want to come earlier.

---

Hi,

Thanks again for helping us out with our Pediatric Sim Clinic Week for our On Doctoring Year 1 students!

We have your son scheduled for our "Simulated" Clinic week on Tuesday March 20th from 3:30-7:30pm.

I've assigned him to the Headache case. On the case there are also instructions and a context for the session, but please be in touch if you have any questions!

During the session, each set of first year medical students (2 of them) will spend about 45 to 50 minutes with you. The first set will spend 3:30-4:15 with you gathering your story about the headache and doing a focused physical exam (checking your blood pressure and heart rate,

things like that as per the attached). You'll have a brief break from 4:20-4:30, and then the next set of first year medical students will join you from 4:30-5:15/5:20 (and so on, with 10 minute breaks between each set).

There will be healthy snacks and drinks available to you during the breaks.

Please come 15 minutes early (3:15) just so we can set up and explain things/show you the layout/answer questions. we'll be there starting at 3pm if you are able to/want to come then!
