COMSEP ABSTRACT REVIEW FOR INNOVATIONS

| Goals: The basic purpose of the project is clear Goals: The objectives of the project address a problem of importance to student education Background/Preparation: The author shows an understanding of existing literature Background/Preparation: The author links the existing literature to the project Instructional Methods: The methods chosen and applied are appropriate for the research/project Instructional Methods: The methods are clearly explained Educational Outcomes: The educational outcomes of the project are appropriate and clear. Evaluation: The project evaluation is appropriate for the respective project and clearly explained Results: The outcome of the project has educational significance Results: The results contribute notably to the field Conclusions: Accurate interpretation of results Conclusions: Possible recommendations for education, practice or policy | Category | Strongly Agree | Agree | Disagree | Strongly Disagree | N/A |
